DIRECTOR'S REMARKS

The year 1981 marks the beginning of a new philosophical approach to regulation of the insurance industry by the Missouri Division of Insurance. We will be striving for a higher level of performance by both the industry and this Division.

The only rationale for the very existence of any regulatory body is to serve the public as fully and adequately as possible. We have informed the insurance industry that proper policyholder service will be emphasized through the careful review of complaints received by the Division and through discoveries made by our examination programs, both Market Conduct and Financial. The quality of performance within the Division of Insurance itself will include prompt, courteous service as our everyday practice. Constructive criticism will always be welcome from our citizens or the industry, and will always be honored with due consideration.

We prefer to allow the natural forces of the market place to act through competition as the primary regulatory control in such areas as pricing or product innovation. We do not believe, however, that the State should abrogate its responsibility to monitor, through collection of data, the market results of our insurers. We should aggressively regulate the market in all lines of business such as Credit Life in which competition is not an effective regulatory control. In all cases, the industry must be regulated in the best interest of the insurance-buying public.

In order to properly evaluate the performance of the insurance industry, a major emphasis will be placed upon the need to develop and maintain accurate, timely data on insurance companies and their behavior in this State. Financial data, movements in our open insurance markets and product innovations will be monitored carefully, in addition to the monitoring of complaints already mentioned above.

We want honest, professional insurance specialists selling insurance in this State, and offering true service after the sale of the policy. To accomplish this end, we will urge industry to improve agent training, we will raise qualifying standards for licensing, and we will continue to track the effectiveness of each company's training program for its agents.

Of particular concern to the Division are complaints we have received involving elderly people who have been taken advantage of as the result of fraudulent or unscrupulous sales practices. We will continue to devote a great deal of time and effort to these problems.

We currently regulate 1,237 companies, of which 140 are Missouri domiciled. Total premiums written in 1980 were $4,399,942,553. The industry paid the State of Missouri $66,718,924.85 in premium taxes and license fees. The budget for the Division of Insurance for fiscal year 1981 was $1,692,003.00, and for fiscal year 1982 is $1,455,525.00

For the protection of Missouri policyholders, companies doing business in our State have deposited with this Division securities having a total value of $2,567,224,035.06.

Sincerely,

C. Donald Ainsworth

TOTAL	*1,237*

During the year 1980, the Missouri Division of Insurance assessed Premium Tax in the amount of $55,807,834; Workmen's Compensation Tax of $7,024,573 and Second Injury Fund Assessment of $626,759. In addition, the Division collected $3,886,518 in fees making a total revenue collection by the Division of Insurance of $67,345,689.

The Division consists of 10 sections and employs a staff of 88 plus 50 field examiners and maintains two consumer service branch offices, one in Kansas City and one in St. Louis. The sections are: Director, Operations, Licensing, Legal, Financial Exam, Life, Accident and Health, Property and Casualty, Consumer Protection and Market Conduct.

The Division operates to provide services for the consumer and the insurer of Missouri. The Division regulates Missouri's insurance industry, making certain that insurance companies are properly supervised and operating safely for the protection of the policyholders.

ACCIDENT AND HEALTH SECTION

The Accident and Health Section is responsible for the review of policy forms, riders, endorsements and applications offered to the Missouri insurance buying public. Presently there are eight hundred and twenty-two (822) companies licensed to write accident and health insurance in this state. Health insurance policies consist of hospital medical expense, major medical, disability income, hospital cash indemnity, loss of time, special coverage policies (cancer) and loss of earnings contracts. Companies also offer policies providing for accident and accidental death and dismemberment coverage.

With the continuous concern for adequate health insurance coverage, there is a constant up-dating of policies, especially on the merits of easier readable provisions. The Health Section received fifteen thousand two hundred and forty-nine (15,249) forms from July, 1980 to July, 1981. Ninety-two percent (92%) required some form of correspondence to bring them in line with Missouri Statutes and Regulations. Seven thousand seven hundred and seventy (7,770) forms were eventually given formal approval. There were forty-three (43) new and amending companies seeking approval of forms for a Certificate of Authority or amending Certificate of Authority to conduct the business of health insurance in Missouri.

The members of this Section were involved in numerous conferences relating to policy provisions and new concepts of accident and health insurance. This Section also responded to the many inquiries from the insurance buying public, as well as other state insurance departments. Members of the Health Section met frequently with members of the Missouri Legislature when their assistance was requested. The Section also frequently corresponded with the Department of Health, Education and Welfare (HEW) to stay abreast as to what action was taken on the national level to improve health care, also for discussion of the development of Health Maintenance Organization (H.M.O's).

The Health Section also avails itself to the other Sections within the Division, as well as assisting the Department of Consumer Affairs, Regulation and Licensing (C.A.R.L.) and the Office of Aging.

A regulation has been promulgated for better control of Medicare Supplement insurance policies that are marketed to Missourians.

Missouri Statutes 376.381 and 376.779 went into effect during fiscal year 1980-81. These statutes set forth minimum standards for the offering of benefits for the treatment of mental illnesses and alcoholism, chemical dependency and drug abuse.

CONSUMER-PROTECTION SECTION

The Division's Consumer Protection Section, was reorganized in 1973 to provide greater control over complaints and inquiries and to provide a more thorough analysis of insurance problems or questions. This Section is charged with the responsibility of providing consumers with an arena for mediating complaints and obtaining answers to insurance related inquiries. To fulfill this responsibility, the Division maintains offices in St. Louis and Kansas City, as well as the Jefferson City facility, and all are charged with assisting consumers in accordance with the guidelines of the Missouri Division of Insurance statutes and regulations.

During 1980, Consumer Protection received and processed 11,452 complaints (a 14.1% increase over 1979) and 31,279 inquiries and assisted Missourians in recovering over 1 3/4 million dollars from insurance companies. Since reorganization, Consumer Protection has assisted Missourians in recovering almost $17,000,000.00.

Also, during the year, Consumer Protection actively participated in various consumer education programs by providing guest speakers and panelists.

EXAMINATION SECTION

The activities and personnel of the Examination Section of the Division of Insurance are under the direct supervision of the Chief Examiner, assisted by the Supervisor of Tax and Audit.

The responsibilities of this Section include the following: (1) a determination of the financial condition of all domestic and foreign companies licensed with the State; (2) to conduct the pre-licensing examination of all newly formed domestic companies; (3) supervision of the activities and operations of all excess lines and non-admitted carriers; (4) to directly supervise the examinations of all domestic companies in Missouri; (5) to initiate the processing of applications for licensing in Missouri of all foreign companies; (6) to review monthly and quarterly financial reports; (7) to supervise the operations of the tax and fee section; (8) to assess and effect the collection of all premium taxes and filing fees that may be due the State of Missouri; (9) to assist the General Counsel in matters pertaining to receiverships, hearings for mergers, reinsurance, or sale of companies; (10) to provide the necessary financial reports in matters concerning the new Holding Company Act of 1971; (11) to conduct the necessary training programs for the Missouri Insurance Examiners; (12) the maintenance of all necessary files pertaining to insurance companies and field insurance examiners.

The Chief Examiner arranges for the scheduling of all examinations and assigns the necessary examiners to conduct examinations. The financial examiners are trained to follow generally recognized examination procedures in accordance with the Missouri Insurance Code and NAIC Regulations. Their findings are set forth in a condensed written examination report which is reviewed by the Chief Examiner before the filing as a public document. In the event of any violations of the Statutory Law or Regulations, the companies are immediately directed to make the necessary corrections to their method of operations and if warranted, to arrange for the sufficient contribution to Surplus to protect the policyholders.

The Director of Insurance has the authority within the Missouri Insurance Code to call for an examination of domestic companies whenever it is deemed to be necessary. The examination schedule for domestic companies has been adjusted in recent years in order to assure that most companies will be examined every two (2) years. In some instances a company may be examined on a yearly basis.

In addition to the 56 examinations completed in 1980, the Missouri financial examiners participated in 10 association examinations across the United States. As of December 31, 1980, there were approximately 1,226 domestic and foreign companies licensed to transact business in Missouri. This is exclusive of approximately 100 town and county mutuals which have not come under the jurisdiction of the Missouri Division of Insurance. The Examination Section also closely monitored the financial affairs of approximately 100 of the licensed companies by requiring monthly or quarterly financial statements. In addition, the annual disclosure reports of self-insurance health benefit plans with Missouri participants were also audited.

The financial examiners are all required to participate in various casualty and life insurance accounting courses. The training program for auditing with the use of computers is being continually updated to enable the examiners to improve their auditing skills. This required continued educational training by the field examiners.

During 1980, 42 foreign companies were admitted to Missouri, two Missouri companies were incorporated and licensed to do business in the State of Missouri and two Farmers Mutual Companies elected to come under our jurisdiction.

TAX AND AUDIT: This area of the Examination Section assessed taxes upon premiums written in Missouri of $62,832,406.85. This was an increase of $1,652,270.37 over 1979 premium taxes.

The second injury fund assessment collected on workmen's compensation losses during 1980 was $626,759.25.

SECURITIES SECTION
(As of December 31, 1980)

The Securities Section is responsible for the accounting and control of the "joint" deposits required by the Insurance Laws of the State. Such securities are deposited with the Director of Insurance to comply with various deposit sections of the Missouri Insurance Code or for the convenience of domestic companies applying for admission in foreign states. The deposits are held to guarantee the payments of policy claims and to insure certain rights to policyholders. The deposit requirements vary according to the type of companies; also include the retaliatory section of the statutes. The policy reserve deposit requirement law is the prevailing factor in the total amount of the deposits.

Detailed accounting, audit and control, which includes complete inspection and approval of all documents pertinent to each transaction of each company, is required. The investments offered for deposit must be scrutinized as to eligibility and checked to ascertain if the deposit meets or is in excess of the reserve requirements for each individual company. Active account balances are verified with the companies quarterly; all others semi-annually. The Data Processing Unit is used for much of the record keeping of this section.

Records in this section reflect the phenomenal growth and financial stability of the industry. The deposits as of December 31, 1970, were $1,235,085,910.56. As of December 31, 1980, they were $2,567,224,035.06, an increase over the ten-year period of $1,332,138,124.50. The records for the year of 1980 indicate that the amount of securities deposit increased $67,357,372.23 over the deposits of 1979. The deposits of 252 companies in all categories at December 31, 1980, amounted to $2,567,224,035.06, invested as follows: Bonds $1,577,886,187.90; Mortgages $977,865,632.59; Real Estate, $11,472,214.57.

This section maintains daily control of each company's bonds, stocks, individual mortgages and real estate accounts. Periodic mortgage loan payments are reported to the section by the companies. The exact deposit value of mortgage loans on deposit is available at any time. All securities are kept in safe deposit boxes in St. Louis, Springfield, Jefferson City and Kansas City, Missouri, to which there is a carefully established method of joint access.

THE EXCESS AND SURPLUS LINES SECTION

The Excess and Surplus Lines Section approves individual risk placements in the non-admitted market that are not acceptable to companies licensed in Missouri and not eligible for JUA or Fair Plan. 217 individuals were qualified Missouri surplus lines brokers as of July 1, 1981.

The surplus line broker is responsible for filing individual risks for approval with thir office. There were 9,315 individual risks filed and 5,650 amended filings made on these placements. A five percent tax is assessed on the net premiums written in the non-admitted market which generated a tax of $1,850,230.32 for the twelve month period ending December 31, 1980. Also provided in the Missouri Surplus Line Law is the procurement of insurance in the non-admitted market by the insured. On such procurements, a five percent tax is assessed on the net premiums paid by the insured. As of December 31, 1980, self-procured insurance generated a tax of $59,754.59 for the previous year. The total surplus line tax collected for the twelve month period ending December 31, 1980, was $1,974,417.44.

Routine examinations were conducted by two field surplus line examiners employed by the Division. These examinations revealed $64,432.53 in unreported taxes.

LEGAL SECTION

The Director maintains a staff of four attorneys to assist the Division in the enforcement and interpretation of the Missouri insurance laws. Division attorneys conduct a variety of hearings concerning acquisition or mergers of insurance companies, reinsurance proposals, and enforcement of insurance statutes and regulations. Division attorneys also appear before the Administrative Hearing Commission concerning the issuance, suspension or revocation of licenses for agents, agencies and brokers.

The Legal Section assists in the approval of amended Certificates of Authority, amendments to Articles of Incorporation for Domestic Companies, changes in Beneficial Ownership of shares of stock, proxy and information statements, approval of proposals for deposit of deeds of trust and policy reserves and amendments of bylaws of domestic companies. In addition, the Legal Section approves and monitors the admission of foreign companies to do business in the State of Missouri and the withdrawal of companies from this state.

The legal staff attorneys represent the Director of Insurance in all court proceedings not involving criminal matters and excluding those matters by which the Attorney General by Statute represents the Director of Insurance. Voluntary Forfeitures and orders assessing Penalties for violations of insurance company statutes are also among the duties of the Legal Section.

The Legal Section is charged with the responsibility for enforcement of the Missouri Insurance Holding Company Act under which annual and period filings are made by holding companies and reviewed for conformity with State Statutes.

In the Consumer Services area, Legal Staff attorneys are called upon to assist policyholders in disputes concerning matters of law and policy interpretations and receive referrals from the Consumer Protection Section of the Division of Insurance and from the Department of Consumer Affairs, Regulation and Licensing.

Finally, the Legal Section provides legal advice to the Director of Insurance and other members of the Division on matters affecting Division policy and reflecting interpretation of state and federal laws, as well as drafting proposed legislation and following that legislation through the legislative process. Constant review and redrafting of Regulations and recently enacted legislation is an ongoing project of the Legal Staff of the Division of Insurance.

In addition, staff counsel handles receiverships and conservatorships of insurance carriers. Many Ancillary receiverships for non-domestic companies are also handled by the Legal Section.

LICENSE SECTION

The License Section has the responsibility of insuring that applicants for licenses as insurance agents, agencies, brokers, surplus line brokers and public adjusters meet qualifications as set forth by the statutes; maintaining permanent records for each of the above areas; conducting examinations for agents, brokers and public adjusters; making requested cancellations; issuing certifications and clearance letters and processing annual renewal of licenses.

In carrying out regular activities, 41,168 permanent licenses were issued to agents. Temporary agent licenses were issued to 6,331 applicants and 9,408 examination permits were issued to applicants who must pass required examinations to qualify for licensure as insurance agents. A total of 129,151 agent licenses were renewed on July 1, 1980. These licenses were issued to 44,012 agents. Insurance companies are required to promptly notify the Division of Insurance upon the termination of an agent's contract.

Any individual transacting or doing business under any name other than his true name, any partnership, unincorporated association corporation or other group transacting or doing business with the public or insurance companies as an insurance agent or broker is required to be licensed as an insurance agency. During 1980, 537 new agency licenses were issued and 3,787 agency licenses were renewed. Commissions may be paid to an agency if the company has on file an official copy of the agency license. The Division of Insurance issued 9,147 such official copies of agency licenses to be filed with companies.

A total of 771 broker examination permits wre issued. Resident broker licenses were issued to 641 persons and non-resident broker licenses were issued to 530 persons. A total of 8,213 broker licenses were renewed 12-31-80.

Newly issued surplus line broker licenses totaled 31 with 199 surplus line broker licenses being renewed. Public adjuster/public solicitor licenses totaled 4. Renewal licenses were issued to 13 public adjusters/public solicitors.

LIFE SECTION

Since every family in the State of Missouri is in some way affected by life insurance, the Life Section of the Division of Insurance has become more and more important in its increasing effort to regulate the business of life insurance in the best interest of Missouri policyholders.

The Life Section's primary function relates to reviewing all life insurance policy and supplemental forms submitted for approval to assure compliance with the appropriate statutes and regulations and with particular reference to compliance with the Standard Non-Forfeiture Law.

At the request of policyholders, the Life Section completes various actuarial computations for policies issued in prior years, including the determination of non-forfeiture values. Letters of inquiry or complaints are answered by this section in those instances where it is in the best position to provide a reply.

This section also collaborates with the Director and other members of the Division in the drafting or consideration of proposed new legislation or regulations affecting life insurance, as well as in the consideration that must be given to proposals for new plans of life insurance submitted by the various companies.

When the Division was first organized in 1869, there were eight Missouri life companies doing business in the state. In addition, there were 57 life companies from other states operating in Missouri for a total of 65.

As of December 31, 1980, there were 43 Missouri life companies and 544 foreign companies, for a total of 587. In addition, fraternal benefit societies, stipulated premium companies and assessment companies accounted for another 43 companies, making a total of 630 companies for which forms must be reviewed. During 1980, 10,579 life insurance policies and related forms were submitted for approval. In order to handle this workload, the Life Section is presently staffed with two policy analysts and one secretary.

The life insurance industry is constantly devising new ideas, benefits and plans of insurance in a continuing effort to serve more insurance needs and more people. The people of the state of Missouri have certainly been involved in this effort as witnessed by the fact that in 1980, there were approximately $998,113,000.00 direct premiums written in Missouri for all types of life insurance.

PROPERTY AND CASUALTY SECTION

Rating plans and information flowing into the Property and Casualty Section revealed highly competitive premium rate activity in the commercial multi-peril insurance package policy market in 1980. The severe competition for the premium dollar was attributed to the high interest rates prevailing in the economy and the desire of insurers to obtain the cash flow for investment. Underwriting profit and loss ratios, therefore, became secondary to investment activity.

Automobile and Homeowners Insurance Buyers' Guides were re-published providing helpful information for consumers.

Legislation, which provided for the review and approval of private passenger automobile insurance policies, dwelling policies, homeowners, renters and tenants policies, was passed in 1979, but did not become effective until January 1, 1980. Hence, the administration of that law was implemented in the 1980 year. The primary purpose of the law was to require more readable language for the benefit of policyholders. Additionally, that law provided that no policy could be disapproved without a petition filed by the Director of Insurance with the administrative hearing commission stating specifically the reasons why the policy should be disapproved according to law.

Revisions in the Workers' Compensation Law became effective August 13, 1980, affecting the insurance premium rates for the several types of benefits.

Workers' Compensation Self-Insurers' Annual payroll and loss reports were processed, experience rates computed and schedules for the premium tax and second injury fund assessment prepared. The Self-Insurers' Tax Schedule follows:

MARKET CONDUCT EXAMINATIONS

Missouri's Market Conduct Program, which began in 1971, is charged with the responsibility of examining all companies licensed to do business in the state. These examinations may include (1) an analysis of Missouri rate structures; (2) a review of individual policy rate applications; (3) a review of policy forms, endorsements and company filings; (4) a review of company selection and termination procedures; (5) an assessment of company claims practices and procedures; and (6) a review of licensing of agents, agencies and brokers, and company marketing activities. Examinations are conducted according to statutory requirements, and may also be targeted to specific problem areas.

The Market Conduct Section examined 73 companies in 1980. This section collected a total of $267,828.65 in 1980 as follows:

Refunds to Missouri Policyholders for Rate Overcharges	$151,894.00
Recovery of Claim Underpayments to Missourians	$ 50,441.65
Fines and Forfeitures for Violations of Law and Improper Practices	$ 65,450.00
Refunds to Missourians for Improper Calculations of Cancellation Refunds	$ 43.00

Missouri has strongly supported the National Association of Insurance Commissioners' position on coordination of Market Conduct Examinations, and during the year, Missouri participated with several other states on zone-type examinations.
